SUMMARY

Interdisciplinary communicator and systems thinker with a background in digital finance, writing, and early-stage product with training in philosophy and economics. Skilled in managing high-stakes relationships, leading multi-stakeholder events, and translating complex ideas into clear, actionable narratives. Now pivoting into mission-driven tech roles where complexity, coordination, and communication intersect. U.S. Citizen; open to relocation.

WORK EXPERIENCE

Digital Foreign Exchange Salesperson – Citi

2023 – 2025 | Hong Kong

- Managed FX sales relationships with institutional clients (hedge funds, insurers, corporates, and banks); drove +700% revenue growth for a key Chinese client.
- Directed Asia's first and second digital bank conferences—developed programming, recruited speakers, ghostwrote keynotes, and managed end-to-end delivery (logistics, budgeting); acquired 6+ clients per event.
- Owned daily analytics for the North Asia digital FX portfolio, applying client-level behavioral analysis across 200+ accounts to optimize pricing strategies—leading to a 35% YoY increase in Spot product revenues.
- Led vendor engagement with 3 partners, uncovering \$5M+ in new annual revenues from client targeting.
- Delivered integrated FX and payment products for regulators, airlines, and banks by aligning internal sales, tech, and product teams, and advising clients on FIX/REST API integration.
- Unified FX Options reporting using Qlik and VBA, reducing P&L delivery lag by one week.

Equity Sales Trading Analyst – Citi

2022 – 2023 | Hong Kong

- Delivered daily research, stock ideas, and market commentary to 100+ institutional clients across Asia.
- Automated 10 recurring market reports with VBA, saving ~5 hours weekly in manual workflows.

USER-FACING & TECHNICAL PROJECTS

Co-founder, PM, & Marketing Lead – Barter (language learning platform)

2020 – 2021 | Figma

- Spearheaded product development, go-to-market strategy, and brand identity development for a non-profit peer language-learning MVP, launched across six university campuses.
- Led design sprints and user-feedback loops; Partnered with Brown University faculty to integrate Barter into Chinese-language courses as an extra-credit conversational tool.

Developer – Index Futures Forecaster

2022 | Python, VBA, Bloomberg API

- Built a machine learning classifier (>80% accuracy on training data) adopted by Citi's equity trading desk; remains in daily use.

Designer and Developer – BookGraph (Network-Theory Recommender)

2025 | SQL, Python | [Github Repository](#) | [Substack Writeup](#)

- Designed and built a network-based book recommender from scratch using k-hop proximity and similarity metrics (Jaccard, cosine, eigenvector, etc.) to model taste proximity and visualize emergent clusters.
- Published a reflective essay on how patterns of taste are revealed through recommendation systems.

EDITORIAL EXPERIENCE

Editor – Art Galleries and Academic Journals

2020 – 2025 | Hong Kong & Providence, RI

- Edited curatorial texts for 3 art gallery exhibitions; served on the editorial board for *A Priori: The Brown Journal of Philosophy*, overseeing selections from 100+ submissions.

EDUCATION

B.A. (Honors) in Philosophy & Economics (Double Major); Minor in Art History – Brown University

2018 – 2022 | Providence, RI

- GPA: Major 3.9 / Overall 3.8.
- One of three philosophy honors recipients. Omicron Delta Epsilon (international economics honors society).
